Brian's Success Story

Brian has been a client of AID for several years. He has dealt with several obstacles throughout his life. Brian is a recovering alcoholic who has been sober for 10 plus years. He understands that his past decisions and actions in the past have had a negative impact on him and loved ones. He continues to learn from those mistakes and makes an effort to improve himself every day.

In the 10 months that I have been working with him he has made great strides. When I began working with Brian he struggled to take his medications correctly. Brian also had trouble remembering when his appointments were; sometimes he could not even remember what day it was. Through increased support from staff, hard work by Brian and the help of his doctor Brian began to take his medications correctly. Brian now packs his medications for longer periods of time and continues to make improvements in his personal life. Brian has returned to cleaning his apartment and doing his grocery shopping on his own. Brian has set new goals for himself that include quitting smoking, starting a healthy diet and building his checking account.

Now that Brian feels more confident in himself he plans to start attending Pathways again. With some of the money that Brian saves he plans to attend his son's wedding next year. It has been a privilege for me to work with such a resilient and inspiring individual.
